2.3.2 - Teachers use ICT enabled tools for effective teaching-learning process.

Computers and laptops are available to all departments and are used to improve the teaching-learning process for students. Faculty members use ICT tools to conduct online seminars, workshops, and lectures. Every department has a blog that is regularly updated and maintained. Students can read and download e-books and e-journals thanks to the college's membership in the INFLIBNET N-LIST consortium. Our teachers and students expand their knowledge and educational capabilities by using this. Stakeholders can remotely search the books available in the library thanks to the Web OPAC capability offered by the central library. The connections to ICT-enabled resources for efficient teaching and learning are provided below.
